certifications

Cafetto® proudly carries the following certifications:

Quality
ISO 9001

SAI GLOBAL

Food Safety
CODEX
HACCP

SAI GLOBAL

NSF®

NSF A3, A1 White Book Nonfood Compounds and International Protocol P152. NSF (National Sanitation Foundation) International Protocol P152 relates to espresso machine cleaners that have been evaluated, tested, and passed NSF's stringent toxicology and corrosivity standards. The ingredients and formulation of the products that are NSF certified are safe, leave no harmful residues and do not cause corrosion within the coffee machine.

BFA Registered

All Cafetto® products marked with the BFA logo have been registered by the Biological Farmers of Australia and are approved for use in organic systems.

OMRI™ Listed

All Cafetto® products marked with the OMRI™ logo have been listed with the Organic Materials Review Institute as complying with the requirements of the National Organic Program.

- Evo® + 53mm blind filter (product code 29206)

Espresso Machine Cleaning Tablets

Each of Cafetto's specialist cleaning tablets are formulated to provide targeted dissolution times and exceptional cleaning for selected super automatic espresso machines.

The table below shows each type of tablets specific size, weight and diameter to determine the right cleaning tablet for your espresso machine*.

	N10	S15	J25	F20	B30	M33
Weight	1g	1.5g	2.5g	2g	2.7g	2.8g
Height	8mm	4mm	12mm	5mm	10mm	11mm
Diameter	10.5mm	16mm	15mm	16mm	14mm	15mm

*All tablets have been made with certain brands of espresso machines in mind. Please check the description of each tablet type to find the one recommended for your machine. If your espresso machine is not listed, please contact Cafetto. Tablet specifications may vary slightly from the dimensions listed above.

Different espresso machines have different requirements for their espresso machine cleaning tablets. Whether it is the size of the tablet, the formula of the product or the dissolution time, Cafetto has something to suit every super automatic espresso machine.

descalers

One Shot Descaler

Convenient one shot descaler to remove hard water scale from espresso machines and coffee brewing equipment.

Ideal for use with Franke espresso machines.

Available in

700ml bottles (carton code 26015 - 12 bottles)

PROFESSIONAL

Liquid Decalcifying Concentrate

A concentrated liquid to decalcify (delime or descale) espresso machines and coffee brewing equipment.

Ideal for use with Schaerer and WMF espresso machines.

Available in

750ml bottles (carton code 29263 - 12 bottles)

PROFESSIONAL

Hard water scale is a white crust (it can be other colours as well depending on the water condition) that forms when hard water is heated to near boiling point. Normal filtration does not remove 'hardness' or prevent scale build up. The descaling process removes hard water scale from the boiler or thermoblock, and the group head or coffee brewer.

descalers

PROFESSIONAL | HOME & OFFICE | ORGANIC

Restore

A safe and effective powder descaler (decalcifier) for removing hard water scale from espresso machine boilers, coffee and milk delivery lines.
