

## Restore Descaler

### Product Description:

Restore is a mild and effective descaling powder for espresso machine boilers and thermo-blocks.

### Features & Benefits:

- Being based on food grade acid, it is very safe to use.
- Restore has been assessed and registered by Biological Farmers of Australia (BFA) as an allowed input suitable for use in organic systems.
- Restore is the safest descaler available for use on aluminium.
- Each sachet makes up 1L of descaling solution diluted.
- Phosphate free
- Biodegradable
- GMO free

### Product specifications, packaging and product codes:

Product	Type of unit pack	Weight	# sachets per unit	# of units per carton	# of sachets per carton	Product code/ individual	Product code/ carton
Restore	Sachet	25g	4	12	48	12160	28303
Restore	Sachet	25g	1	70/sachets	70	12163	14244

### Usage Directions:

- Add contents of sachet to 1 litre of warm water, dissolve, and then pour into water tank.
- Remove filter holder and turn machine on.

# PRODUCT INFORMATION

- Place cup under brew spout and run out about 1 cup of the descaling solution. Run about ¼ cup out through the steam arm. (For superautomatic machines run all the solution through the steam wand and set on hot water not the steam setting).
- Allow to stand for 15 minutes, and then repeat the process. Repeat the entire process until all the solution is used up.
- Rinse thoroughly by flushing one tank of clean fresh water through the system exiting through the brew head and the steam wand.

## Certifications:

Cafetto is Quality Endorsed to ISO9001:2008.  
Cafetto's manufacturing facility is HACCP and GMP certified.
