

COFFEE MACHINE DESCALING TABLETS

RAPID DISSOLUTION & DESCALING

Coffee Machine Descaling tablets are fast-acting, giving the very best results.

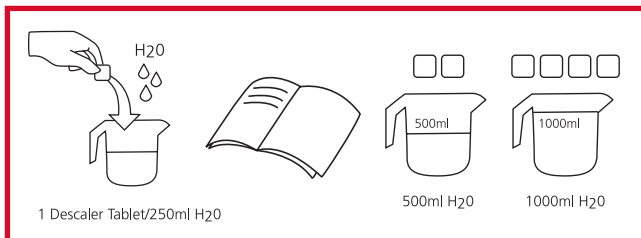

SAFE FOR YOU AND YOUR MACHINE

Non corrosive formulation that is safe for all espresso machine and coffee brewing equipment parts.

CAN BE USED ON A WIDE RANGE OF EQUIPMENT

Designed for espresso machine water tank, boilers and coffee brewers, Coffee Machine Descaling Tablets can also be used in kettles, urns and bain maries.

HOW TO USE

- Refer to machine manufacturer's instructions on how to clean.
- Always rinse thoroughly with fresh water after cleaning.

PORTION CONTROLLED BLISTER PACKED TABLETS

Easy-to-use blister packed tablets make it safe to store and easy to use.

WHY DESCALE?

Descaling products are designed to efficiently and safely descale espresso machines with water tanks and other coffee brewing equipment. The descaling process (also known as decalcifying and de-kalking) removes hard water scale from the boiler or thermoblock and the group head or coffee brewer.

Hard water scale is a white crust (it can be other colours, depending on the water condition) that forms when hard water is heated to near boiling point. Normal filtration does not remove the 'hardness' in hard water.
